In re: Holy Family Communications, Inc.
WJTA(FM), Leipsic, Ohio
Facility I.D. No.: 175969
BMPED-20090923ADC

Dear Applicant:

This letter refers to the above-captioned minor change non-commercial educational construction permit application filed to modify permit BNPED-20071022BSY. The application proposes an increase in the effective radiated power and the antenna height above average terrain, with no change in site location.

An engineering study reveals that the application is in violation of 47 C.F.R. Section 73.509¹ of the Commission's Rules, with respect to the co-channel Class A construction permit (BNPED-20071022DXR) for WTPG, Weston Ohio. Specifically, the application's proposed protected (60 dBu) contour would receive prohibited contour overlap from the interfering (40 dBu) contour of WTPG's permit. The overlap received from WTPG would be as much as 5.7 kilometers between the azimuths of 336 degrees to 88 degrees True. This constitutes an acceptance defect.

In light of the above, Application BMPED-20090923ADC is unacceptable for filing pursuant to 47 C.F.R. Section 73.3566(a)² and IS HEREBY DISMISSED. These actions are taken pursuant to 47 C.F.R. Section 0.283.³

Sincerely,

Rodolfo F. Bonacci
Assistant Chief
Audio Division
